

I recently read that LPFM might be expanded, and take priority over stations often heard with FM translator service. Many, many people can and do listen to K-LOVE because of the FM translator service. So many people call in to this station saying how much they appreciate it and love it. I can honestly say that I love it, and don't intend to listen to any other station. Their motto is "positive and encouraging," and that's exactly what it is. It has an excellent quality of positive, uplifting talk and music, and I honestly believe that it has changed so many lives for the better, that it has a valuable, positive effect on our whole country. Please don't limit K-LOVE's ability to be broadcast as much as possible. Thank you.
